

# LJUBEN VASSILEV

## Android Developer

+61455502775

ljubenvassilev.com

ljuben.vassilev@gmail.com

Brisbane, Australia

## SUMMARY

Bleeding edge like flutter, or old-fashioned like Java - I love it all. Android is my primary domain of expertise, but I also enjoy venturing outside of my comfort zone - CI/CD, Linux servers, and VR/AR games are just a few to mention.

During the last 5 years, I had the opportunity to work on a great variety of projects - banking app, IoT device companion app, GIS app, educational VR game, and many more. I contributed to businesses of various sizes and fields, always striving to add the most value while acquiring new experiences.

My newest passion is Cyber Security, which is fuelled by the Master's degree which I'm studying at the moment at Charles Sturt University. I aspire to implement this new perspective in my programming practices.

## EXPERIENCE

### Android Developer

#### Gruntify

04/2020 - Ongoing Brisbane, Australia
